

Technical & Hospitality rider Martin Wehr

Artist and promotional handle: Martin Wehr

This technical and hospitality rider outlines the requirements and preferences to ensure the best possible performance experience. While an effort should be made to accommodate the specifications listed, deviations from the rider may be possible, provided they are discussed and mutually agreed upon with the artist in advance.

1. Technical rider

1. Digital set configuration

- 2 - 4x Pioneer **CDJ 2000 NXS2** or newer media player (linked)
- 1x Allen & Heath **Xone:96** mixer*

NOTE: The CD/USB players must be directly connected to each other via a high-quality link cable connected to an **Ethernet hub**. The link function should be thoroughly tested beforehand. Additionally, every CD/USB player must be running the exact same version of the latest firmware.

- > Decent monitor speakers facing the artist linked to the booth output of the mixer
- > Decent DJ table with enough extra room for personal belongings
- > Space and access to the back of the mixer for an external effect unit (Strymon Bluesky V2)
- > Height DJ table (not height of decks): 100-110 cm
- > Well-lit DJ booth
- > The organizer/venue is responsible for the appropriate setup and wiring

* Other viable mixers: Xone:92 (or MK2), Pioneer DJM-V10 (or LF), DJM-A9, and DJM-2000 NXS2

Note: If it is not possible to supply the requested hardware, please notify at least 6 hours in advance.

2. Hybrid set configuration

- 2x Pioneer **CDJ 2000 NXS2** or newer media player (linked)
- 1x Technics **SL1200** *without* cartridge
- 1x Allen & Heath **Xone:96** mixer*

NOTE: The CD/USB players must be directly connected to each other via a high-quality link cable. The link function should be thoroughly tested beforehand. Additionally, every CD/USB player must be running the exact same version of the latest firmware.

- > Decent monitor speakers facing the artist linked to the booth output of the mixer
- > Decent DJ table with enough extra room for personal belongings
- > Space and access to the back of the mixer for an external effect unit (Strymon Bluesky V2)
- > Height DJ table (not height of decks): 100-110 cm
- > Well-lit DJ booth
- > The organizer/venue is responsible for the appropriate setup and wiring
- > Additional low table in the booth for vinyl bag
- > The artist needs 5 minutes ahead of the set to configure the turntable

* Other viable mixers: Xone:92 (or MK2), Pioneer DJM-V10 (or LF), DJM-A9, and DJM-2000 NXS2

Note: If it is not possible to supply the requested hardware, please notify at least 6 hours in advance.

2. Hospitality rider

- > 2x 0.5L bottles of sparkling or non-sparkling water
- > 2x 0.33L Club Mate / 0.25L Mojo Mate
- > 2x Banana
- > 1x Clean towel
- > Secure place to keep personal belongings

Note: If it is not possible to supply the requested items, please notify at least 2 hours in advance.
